STATE PRINTER'S REPORT.

State Printer Maddrill has filed | his reports for the years 1881 and 1882. It was with Mr. Maddrill's term that the State commenced to do its own printing and hence the showing he makes is of interest to the people, for previous to the past two years the State printing was done by contract, or under the old fee system. At the session of 1879 the Legislature concluded to do its own printing and \$10,000 were appropriated to purchase an office. According to Mr. Maddrill's reports the sum of \$9,119 47 sufficed for the purpose. This sum, therefore, represents the cost to the State for its printing for the past two years. There have been of itself. A PECULIAR POSITION.

The Eureka Leader takes the annexed view of the relation of the Republican

party to the political situation: The Republican party of the country is in a peculiar position. It has just done a very strong thing. Without reference to consequences it has punished a disreputable crowd which claimed to represent it by explaining to it by figures what defeat means. As a consequence there is some demoralization, but the demoralization is simply the clashing of strength which cannot find its place. In all sincerity we desire to say that it is our belief that the ex-perience of November was the salvation of Republicanism. For a great many years the party has been run on the honesty of its motives. The later experiences have served to make one doubt its utterances. The last experience settled the minor doubts. When it goes before the country again it will have a new strength. It can bring forward a defeat as a victory. It can
